

About Us

4C Robotics & Repair was founded out of a dream & desire to provide top notch robotic service at an affordable cost with amazing value.

Founded on the value that the customer is our partner and priority #1 in service.

We specialize in industrial robot repair and refurbishment. We offer many services to assist you in your robotic refurbishment and repair needs, including PM services. Our main offering is robotic refurbishment, which can save you thousands of dollars in repair and tens of thousands in replacement robots.

We follow comprehensive testing and agreement, and we preform a complete flush of the old grease and replacement. We have years of experience on hundreds of robotic arms, ensuring the quality and prevention of costly seal and motor failures common in the replacement of grease in robotic arms.
